

SHARED LIVING

Make a difference and make a living as a Shared Living Provider!

Home & Community Connections has a long-standing, demonstrated history of providing progressive, trauma sensitive, person-centered support for people with intellectual, developmental, and related disabilities. Enhance your life by sharing your home and providing support and care with a passion for purposeful living!

We are seeking individuals or families to provide live-in support to individuals with intellectual, developmental, and related disabilities. The provider will provide support to the individual in achieving their goals. Through our shared-living program and your caring support, people with disabilities can have a satisfying, healthy, life they love: learn new skills, discover greater independence, and enjoy the comfort of a welcoming home that meets their needs. Together, we create a home environment that embraces and includes the person supported, as a true member of their community.

Minimum Qualifications:

- 2 year personal commitment
- At least 2 years of successful and related experience caring for family members, raising a family, working in human services, or health care
- Driver's license & vehicle

Opportunities are available in these Western Massachusetts communities:

- **Chicopee**
- **Ludlow**
- **Holyoke**
- **South Hadley**
- **Belchertown**
- **Ware**
- **Palmer**
